MK05-A

MK05-A 15W Outdoor Electronic Insect Killer

Attracts and Kills Flying Insect Pests
Recommended for areas up to 1/2 acre - Outdoor Use Only

Effective, Environmentally Friendly, Maintenance Free

Rid your outdoor living areas of flying insect pests - without harming the environment! Insect remains, uncontaminated by pesticides, fall to the ground to be naturally reabsorbed into the ecosystem. Maintenance free operation features UV light and an electrified grid that eliminates thousands of flying pests for just pennies a day. The decorative lantern even doubles as security lighting! Add optional Octenol attractant for improved effectiveness.

Features:

- Patented, high efficiency, non-clogging killing grid
- Killing grid powered by high voltage transformer
- One 15 watt high intensity ultraviolet, (black light), bulb BF-35
- USDA tested Octenol attractant, a proven mosquito lure
- Rugged, weatherproof polycarbonate construction; will not rust, crack or fade
- Easy bulb replacement - no tools required
- Avoids the continuing expense and inconvenience of chemical insecticides
- Operates for pennies a day
